

# Apps for Me Management for Web Services Administrators

## Disabling Apps for Me

From the home page, select, “Administration, Company, Web Services.”

Select, “Manage User Applications”

# Apps for Me Management for Web Services Administrators

From here, you can “Hide Listing details,” which will render the application inaccessible to your travelers (see screenshot below). You can also “Prevent Users from Connecting,” which will break any connections that may have already been made.

The screenshot displays the 'Manage User Apps' page in the Concur system. The navigation bar includes 'CONCUR', 'Travel', 'Expense', 'Invoice', 'Reporting', 'App Center', and 'Links'. The user is logged in as 'Travel System Admin'. The page title is 'Manage User Apps'. A filter dropdown 'Filter apps by status' is set to 'All'. The table below lists four applications: Uber, ingogo, Lyft, and ezCater. Each application is currently 'Active'. The 'Actions' column for each application contains two links: 'Hide listing details' and 'Prevent users from connecting'. A red box highlights the 'Actions' column for all four applications.

Application	Short Description	Status	Actions
<b>Uber</b> Website: <a href="http://uber.com/">http://uber.com/</a> Connect URL: <a href="https://get.uber.com/sign-up-concur">https://get.uber.com/sign-up-concur</a>	Make paper receipts a thing of the past. Concur & Uber means reliable, quality rides and easier paperless trips.	Active	<a href="#">Hide listing details</a> <a href="#">Prevent users from connecting</a>
<b>ingogo</b> Website: <a href="http://www.ingogo.mobi">www.ingogo.mobi</a> Connect URL: <a href="http://www.ingogo.mobi/user-guide-concur/">http://www.ingogo.mobi/user-guide-concur/</a>	Receipts piling up from your taxi rides? ingogo & Concur enable you to easily book taxis and seamlessly send receipts to your receipt store – ready for your expense report.	Active	<a href="#">Hide listing details</a> <a href="#">Prevent users from connecting</a>
<b>Lyft</b> Website: <a href="http://www.lyft.com/work">http://www.lyft.com/work</a> Connect URL: <a href="https://www.lyft.com/concur/redirect">https://www.lyft.com/concur/redirect</a>	No more hailing cabs, renting cars and storing receipts. Lyft gets you where you need to be, and automatically sends an e-receipt to your Concur account.	Active	<a href="#">Hide listing details</a> <a href="#">Prevent users from connecting</a>
<b>ezCater</b> Website: <a href="http://www.ezcater.com/">http://www.ezcater.com/</a> Connect URL: <a href="https://ezcater.com/connect/concur">https://ezcater.com/connect/concur</a>	With ezCater + Concur, you can order free online from reliable caterers nationwide, then get e-receipts automatically. Thousands of caterer reviews. Free concierge service.	Active	<a href="#">Hide listing details</a> <a href="#">Prevent users from connecting</a>
