

Expenses System – Quick Start Guide

Congratulations on completing your first NHS and Care Volunteer Responder or Steward Volunteer job (or maybe even jobs). If you have incurred reasonable expenses (please see Expense Policy doc for more details), you can make a claim for reimbursement using the NHS and Care Expenses System. In this guide you will find all the information you need to be able to do this.

How to claim your expenses at a glance?

Terms used

Before we start, let's take a look at some of the terms you will see in the Expenses System and what they mean:

- **Expense Claim** – This is a virtual folder which you add your expenses to. It will require a unique name and once you have submitted an expense claim (containing your expenses) for payment, you will need to create a new expense claim for your next set of expenses. For example, you could create an expense claim named **Week Ending 12th May 2023**, then add all your expenses for that week to this expense claim, submit it for payment and then the following week create a new expense claim named **Week Ending 19th May 2023** and repeat.
- **Expenses** – These are the details of each individual expense which you have incurred, including the date, the type, the Job/Task ID, the amount and receipt or journey taken (if required). Expenses are added to an Expense Claim.
- **Expense Type** – The types of expenses which you can claim for are; Mileage, Public Transport, Congestion Charge, Toll charge Bridge/Road and Parking. More details on exactly what you can claim for on each expense type, can be found in the **Expense Policy** and **Frequently Asked Questions** on the Training page - <https://www.concur.co.uk/rvs>
- **Available Expenses** – These are the receipts which you have scanned using the Concur App or have emailed into the Expense System which have not been added to an expense claim.
- **Open Claims** – These are the expense claims which you have created. You will be able to see expense claims which you have submitted (you can see their status too) and also ones which you haven't submitted yet.
- **Donation/Donate** – By selecting this option you are saying that you do not wish to be reimbursed for your selected expense or expenses; instead you would like your donated expense(s) to be donated for services that support the NHS and Care and are delivered by Royal Voluntary Service. You can choose to donate an expense or expenses by selecting the **Donation** checkbox (on a computer) or the **Donate** slider (on a mobile device) when creating the expense.

Please Note: Before you'll be able to claim expenses incurred during your voluntary role, you will need to make note of some important information whilst you are completing a Job via GoodSAM. You will need to remember to:

- **GoodSAM Job ID** – Make a note of the GoodSAM Job ID for each job that you accept. You will need to know this when making a claim, to demonstrate where the expenses occurred. You can also find a list of the GoodSAM Job IDs, for Jobs which you have completed and the dates that you completed them, in the **Report** section of the GoodSAM app.
- **Receipts and Tickets** – You will also need to retain receipts and tickets for Public Transport, Congestion Charge, Toll charge Bridge/Road, Subsistence (Steward and Connect volunteers only), Activities (Connect volunteers only) and Parking.
- **Postcodes** – Finally you will need to keep a note of any postcodes for your journeys. These will be needed to claim Mileage.

Approval and Payment

Expense claim review and approval

Once you submit your expense claim it will be reviewed and audited, and if it is approved, it will be processed for payment. If you have exceeded any of the limits set in the **Expense Policy** it will be sent for an additional review and further authorisation. This may delay the payment of your claim. In the **Frequently Asked Questions** on the Training page, you will find a key to what the different alerts and warnings mean. You will find Training page here -

<https://www.concur.co.uk/rvs>

Queries over submitted expense claims.

For most claims requiring a receipt, your claim will go through an automatic audit process by Concur when it is submitted (*this does not include subsistence or mileage claims*).

If your claim is returned to you by Concur, the report you will receive will contain comments on why it has been returned and will contain information on what action you need to take. When you have made the amendments and resubmitted, this will then be reviewed again, and if approved, sent for payment.

You will have 3 attempts of resubmitting a claim, and if still not correct after this time, it will be rejected and sent for additional audit by Royal Voluntary Service staff. Mileage and Subsistence claims will continue to be reviewed by Royal Voluntary Service and if there are any comments will be returned for you to review and submit.
